This fully synthetic engine oil is the only oil to be used in engines with 30,000 km/18,000 mile service intervals. The oil has excellent high and low temperature properties. It also has excellent winter properties, which facilitates cold starts and reduces fuel consumption.

Recommended for the following engines:

- All engines with 30,000 km/18,000 mile service interval
- All gasoline engines from 850 and onwards that are driven under alpine/mountainous conditions and that frequently tow trailer or camper.

Technical data

Quality:	ACEA A5/B5
Viscosity:	SAE 0W-30
Color:	Amber
HTHS value (150°C/302°F):	3.1 mPa s
Density at 15 °C:	844 kg/m³
Base:	Fully synthetic
Lowest flow point	-60 °C (104°F)
Viscosity at 100 °C:	9.81 mm²/ s
Viscosity at 40 °C:	56.3 mPa s
Temperature range:	-40 °C to +150 °C

Important In order to specify the correct oil for the car, always check the owner's manual for the car.
