

## Original BMW Engine Oil BMW TwinPower Turbo BMW Longlife-01 SAE 5W-30 - Full Synthetic

### Product description

The BMW Longlife-01 TwinPower Turbo SAE 5W-30 is an engine oil based on synthetic technology. It guarantees outstanding engine performance, achieving an **excellent price/performance ratio**. The innovative Shell PurePlus technology guarantees engine protection that exceeds conventional industry standards and which **keeps critical engine parts cleaner**.

Compared to conventional engine oils, this oil exhibits better viscosity properties, reduced friction and minimised propensity for evaporation.

### Sales features / benefits

- Constant performance even in **extreme** conditions.
- **Easier** cold starts at low temperatures.
- **Good** wear protection.
- **Good** temperature stability.
- The **patented** active cleaning technology **protects** against corrosion and deposits, thereby guaranteeing a long engine service life.
- **Fast** lubrication throughout the engine.

### Competition comparison

The new Original BMW engine oil allows the potential of BMW engines to be utilized to the **fullest**.

This oil has passed BMW's exacting performance tests and has been approved by BMW

### Technical information

Specifications:

- BMW Longlife-01
- ACEA A3/B4
- API SN

The oil has been approved by BMW as all-year-round oil.

BMW TwinPower Turbo Longlife-01 SAE 5W-30

### Note:

Important: For all BMW gasoline engines

### Safety instructions:

The safety data sheet is available via Centernet.

| Name                                      | Availability / EPC DVD | Part number     |
|---|------------------------|-----------------|
| BMW TwinPower Turbo Longlife-01 SAE 5W-30 | From 01/2015           |                 |
| 1 liter                                   |                        | 83 21 2 365 946 |
| 209 liters                                |                        | 83 21 2 405 002 |
| Tank-625 liters                           |                        | 83 21 2 405 085 |
