# **Safety Data Sheet**

# Section 1 - Identification of The Material and Supplier

Product Name:	LHM Plus	
Product Code:	529	
Product Use:	Hydraulic oil; Brake fluid.	
Supplier:	Total Oil Australia Pty Ltd (ABN 15 149 501 922) Suite 2, 415 Riversdale Road, Hawthorn East Victoria 3123 AUSTRALIA Phone: +61 (03)9861 8600 Fax: +61 (03) 9882 0447	
EMERGENCY TELEPHON		
NUMBER (CHEMTREC):	+61 2 9037 2994 (Australia), +64 9 801 0034 (New Zealand)	
Chemical nature:	Contains Hydrocarbons, $C_{13}$ - $C_{16}$ , n-alkanes, isoalkanes, cyclics, <0.03% aromatics. Product containing mineral oil with less than 3% DMSO extract as measured by IP 346.	
Creation Date:	October, 2011	
This version issued:	September, 2015 and is valid for 5 years from this date.	
Section 2 - Hazards Identification		

## **Statement of Hazardous Nature**

This product is classified as: Xn, Harmful. Hazardous according to the criteria of SWA.

Not a Dangerous Good according to Australian Dangerous Goods (ADG) Code, IATA and IMDG/IMSBC criteria.

**Risk Phrases:** R65, R52/53. Harmful: May cause lung damage if swallowed. Harmful to aquatic organisms, may cause long-term adverse effects to the aquatic environment.

**Safety Phrases:** S23, S25, S61. Do not breathe mists. Avoid contact with eyes. Avoid release to the environment. Refer to special instructions/Safety Data Sheets.

SUSMP Classification: None allocated.

**ADG Classification:** None allocated. Not a Dangerous Good under the ADG Code.

**UN Number:** None allocated

# **GHS Signal word: DANGER**

#### HAZARD STATEMENT:

H304 - May be fatal if swallowed and enters airways

H412: Harmful to aquatic life with long lasting effects.

## PREVENTION

P102: Keep out of reach of children.

P261: Avoid breathing mists.

P262: Do not get in eyes, on skin, or on clothing.

P273: Avoid release to the environment.

P281: Use personal protective equipment as required.

## RESPONSE

P337: If eye irritation persists: seek medical attention.

P353: Rinse skin or shower with water.

P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

P370+P378: In case of fire, use carbon dioxide, dry chemical, foam.

## Issued by: Total Oil Australia Pty Ltd

Phone: +61 (03)9861 8600

## STORAGE

P402+P404: Store in a dry place. Store in a closed container.

## DISPOSAL

P501: If product can not be recycled, consider controlled incineration, or contact a specialist waste disposal company (see Section 13 of this SDS).

## **Emergency Overview**

#### Physical Description & Colour: Fluorescent yellowish-green liquid.

Odour: No data re odour.

Major Health Hazards: no significant risk factors have been found for this product.

## **Potential Health Effects**

## May cause allergic reactions.

## Inhalation:

**Short Term Exposure:** Available data indicates that this product is not harmful. In addition product is unlikely to cause any discomfort or irritation. Inhalation of high concentration of aerosols may cause mild irritation of the throat. **Long Term Exposure:** No data for health effects associated with long term inhalation.

## **Skin Contact:**

**Short Term Exposure:** Available data indicates that this product is not harmful. It should present no hazards in normal use. In addition product is unlikely to cause any discomfort in normal use.

**Long Term Exposure:** oil blisters may develop following prolonged and repeated exposure through contact with stained clothing.

# Eye Contact:

**Short Term Exposure:** This product may be mildly irritating to eyes, but is unlikely to cause anything more than mild discomfort which should disappear once product is removed.

Long Term Exposure: No data for health effects associated with long term eye exposure.

## Ingestion:

**Short Term Exposure:** Significant oral exposure is considered to be unlikely. However, harmful: may cause lung damage if swallowed.

Long Term Exposure: No data for health effects associated with long term ingestion.

## **Carcinogen Status:**

SWA: No significant ingredient is classified as carcinogenic by SWA.

**NTP:** No significant ingredient is classified as carcinogenic by NTP.

IARC: No significant ingredient is classified as carcinogenic by IARC.

## Section 3 - Composition/Information on Ingredients

			<b>,</b>	
Ingredients	CAS No	Conc,%	TWA (mg/m <sup>3</sup> )	STEL (mg/m <sup>3</sup> )

This is a commercial product whose exact ratio of	components m	ay vary slightly.	Minor quantities of	of other non

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non hazardous ingredients are also possible.

The SWA TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equalled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak "is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

## **Section 4 - First Aid Measures**

## **General Information:**

You should call The Poisons Information Centre if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 1126 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Have this SDS with you when you call.

Inhalation: First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.

## Issued by: Total Oil Australia Pty Ltd

Phone: +61 (03)9861 8600

**Skin Contact:** Gently blot away excess liquid. Irritation is unlikely. However, if irritation does occur, flush with lukewarm, gently flowing water for 5 minutes or until chemical is removed.

**Eye Contact:** Quickly and gently blot material from eyes. No effects expected. If irritation does occur, flush contaminated eye(s) with lukewarm, gently flowing water for 5 minutes or until the product is removed. Obtain medical advice if irritation becomes painful or lasts more than a few minutes. Take special care if exposed person is wearing contact lenses.

**Ingestion:** If product is swallowed or gets in mouth, do NOT induce vomiting; wash mouth with water and give some water to drink. If symptoms develop, or if in doubt contact a Poisons Information Centre or a doctor.

# **Section 5 - Fire Fighting Measures**

**Fire and Explosion Hazards**: The major hazard in fires is usually inhalation of heated and toxic or oxygen deficient (or both), fire gases. This product is classified as a C1 combustible product. There is no risk of an explosion from this product under normal circumstances if it is involved in a fire. Violent steam generation or eruption may occur upon application of direct water stream on hot liquids. Vapours from this product are heavier than air and may accumulate in sumps, pits and other low-lying spaces, forming potentially explosive mixtures. They may also flash back considerable distances.

Fire decomposition products from this product are likely to be irritating if inhaled.

**Extinguishing Media:** Suitable extinguishing media are carbon dioxide, dry chemical, foam, water fog. **Fire Fighting:** If a significant quantity of this product is involved in a fire, call the fire brigade.

Flash point:	128°C, ASTM D93
Upper Flammability Limit:	No data.
Lower Flammability Limit:	No data.
Autoignition temperature: Flammability Class:	No data. Not flammable (GHS); C2 combustible (AS 1940)

# **Section 6 - Accidental Release Measures**

Accidental release: Minor spills do not normally need any special cleanup measures. In the event of a major spill, prevent spillage from entering drains or water courses. As a minimum, wear overalls, goggles and gloves. Suitable materials for protective clothing include nitrile, neoprene. Eye/face protective equipment should comprise as a minimum, protective glasses and, preferably, goggles. If there is a significant chance that vapours or mists are likely to build up in the cleanup area, we recommend that you use a respirator. Usually, no respirator is necessary when using this product. However, if you have any doubts consult the Australian Standard mentioned below (section 8). Stop leak if safe to do so, and contain spill. Absorb onto sand, vermiculite or other suitable absorbent material. If spill is too large or if absorbent material is not available, try to create a dike to stop material spreading or going into drains or waterways. Sweep up and shovel or collect recoverable product into labelled containers for recycling or salvage, and dispose of promptly. Can be slippery on floors, especially when wet. Recycle containers wherever possible after careful cleaning. After spills, wash area preventing runoff from entering drains. If a significant quantity of material enters drains, advise emergency services. This material may be suitable for approved landfill. Ensure legality of disposal by consulting regulations prior to disposal. Thoroughly launder protective clothing before storage or re-use. Advise laundry of nature of contamination when sending contaminated clothing to laundry.

# Section 7 - Handling and Storage

**Handling:** Keep exposure to this product to a minimum, and minimise the quantities kept in work areas. Check Section 8 of this SDS for details of personal protective measures, and make sure that those measures are followed. The measures detailed below under "Storage" should be followed during handling in order to minimise risks to persons using the product in the workplace. Also, avoid contact or contamination of product with incompatible materials listed in Section 10.

**Storage:** Note that this product is combustible and therefore, for Storage, meets the definition of Dangerous Goods in some states. If you store large quantities (tonnes) of such products, we suggest that you consult your state's Dangerous Goods authority in order to clarify your obligations regarding their storage.

Store packages of this product in a cool place. Make sure that containers of this product are kept tightly closed. Keep containers dry and away from water. Make sure that the product does not come into contact with substances listed under "Incompatibilities" in Section 10. Some liquid preparations settle or separate on standing and may require stirring before use. Check packaging - there may be further storage instructions on the label.

# **Section 8 - Exposure Controls and Personal Protection**

The following Australian Standards will provide general advice regarding safety clothing and equipment: Respiratory equipment: **AS/NZS 1715**, Protective Gloves: **AS 2161**, Occupational Protective Clothing: AS/NZS 4501 set 2008, Industrial Eye Protection: **AS1336** and **AS/NZS 1337**, Occupational Protective Footwear: **AS/NZS2210**.

# Issued by: Total Oil Australia Pty Ltd

Phone: +61 (03)9861 8600

#### SWA Exposure Limits Oil, mineral

TWA (mg/m<sup>3</sup>) 5 (mist)

not set

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems. Ventilation: This product should only be used in a well ventilated area. If natural ventilation is inadequate, use of a fan is suggested.

Eye Protection: Eye protection is not normally necessary when this product is being used. However, if in doubt, wear suitable protective glasses or goggles.

Skin Protection: The information at hand indicates that this product is not harmful and that normally no special skin protection is necessary. However, we suggest that you routinely avoid contact with all chemical products and that you wear suitable gloves (preferably elbow-length) when skin contact is likely.

**Protective Material Types:** We suggest that protective clothing be made from the following materials: nitrile, neoprene.

Respirator: Usually, no respirator is necessary when using this product. However, if you have any doubts consult the Australian Standard mentioned above.

## **Section 9 - Physical and Chemical Properties:**

Physical Description & colour:	Fluorescent yellowish-green liquid.
Odour:	No data re odour.
Boiling Point:	Not available.
Freezing/Melting Point:	No specific data. Liquid at normal temperatures.
Volatiles:	Nil at 100°C.
Vapour Pressure:	Nil at normal ambient temperatures.
Vapour Density:	No data.
Specific Gravity:	0.836 at 15°C
Water Solubility:	Negligible at 20°C.
pH:	No data.
Volatility:	Nil at normal ambient temperatures.
Odour Threshold:	No data.
Evaporation Rate:	No data.
Coeff Oil/water Distribution:	No data.
Viscosity:	kinematic: 18 mm²/s at 40°C
Autoignition temp:	No data.

## Section 10 - Stability and Reactivity

Reactivity: This product is unlikely to react or decompose under normal storage conditions. However, if you have any doubts, contact the supplier for advice on shelf life properties.

Conditions to Avoid: This product should be kept in a cool place, preferably below 30°C. Keep containers tightly closed. Containers should be kept dry.

Incompatibilities: strong oxidising agents.

Fire Decomposition: Combustion forms carbon dioxide, and if incomplete, carbon monoxide, various hydrocarbons, aldehydes and smoke. Water is also formed. Small quantities of oxides of phosphorus. Carbon monoxide poisoning produces headache, weakness, nausea, dizziness, confusion, dimness of vision, disturbance of judgment, and unconsciousness followed by coma and death.

**Polymerisation:** This product will not undergo polymerisation reactions.

# **Section 11 - Toxicological Information**

# Local Effects:

**Target Organs:** There is no data to hand indicating any particular target organs.

## CHRONIC TOXICITY OR LONG-TERM TOXICITY :

Carcinogenicity: This product is not classified carcinogenic. During use in engines, contamination of oil with low levels of combustion products occurs. Used motor oils have been shown to cause skin cancer in mice following repeated application and continuous exposure. Brief or intermittent skin contact with used motor oil is not expected to have serious effects in humans if the oil is thoroughly removed by washing with soap and water. Mutagenicity: This product is not classified as mutagenic.

Reproductive toxicity: This product does not contain any known or suspected reproductive hazards. Other adverse effects Characteristic skin lesions (pimples) may develop following prolonged and repeated exposures (contact with contaminated clothing).

## **Classification of Hazardous Ingredients**

# Ingredient

#### **Risk Phrases**

No ingredient mentioned in the HSIS Database is present in this product at hazardous concentrations. Distillates (petroleum), hydrotreated light paraffinic

- LD<sub>50</sub> > 5000 mg/kg bw (rat OECD 420)
- LD<sub>50</sub> > 5000 mg/kg bw (rabbit OECD 402)
- $LC_{50}$  (4h) > 5 mg/l (aerosol) (rat OECD 403)

Hydrocarbons, C13-C16, n-alkanes, isoalkanes, cyclics, < 0.03% aromatics

- LD<sub>50</sub> > 5000 mg/kg bw (rat OECD 401)
- LD<sub>50</sub> (24h) > 3160mg/kg bw (rabbit OECD 402)
- LC<sub>50</sub> (4h) > 5266 mg/m3 (aerosol) (rat OECD 403)
- White mineral oil (petroleum)
  - LD<sub>50</sub> >5000 mg/kg (Rat)
  - LD<sub>50</sub> > 2000 mg/kg (Rabbit OECD 402)
  - LC<sub>50</sub> (4h) > 5 mg/l (Rat aerosol OECD 403)
- 2,6-di-tert-butylphenol
  - LD<sub>50</sub> > 5000 mg/kg ( Rat )
  - LD<sub>50</sub> > 2000 mg/kg ( Rabbit )
- tris(methylphenyl) phosphate
  - DL<sub>50</sub> 3700 mg/kg (Rat)
  - LD<sub>50</sub> 10000 mg/kg (Rabbit)
  - LD<sub>50</sub> 11.1 mg/l

Triphenyl phosphate

- LD<sub>50</sub> > 2000 mg/kg (Rat OECD 401)
- LD<sub>50</sub> > 10000 mg/kg (Rabbit OECD 401)

# **Section 12 - Ecological Information**

Harmful to aquatic organisms, may cause long-term adverse effects to the aquatic environment.

Distillates (petroleum), hydrotreated light paraffinic

- EL<sub>50</sub> (72h) > 100 mg/L (*Pseudokirchneriella subcapitata* OCDE 201)
- EL<sub>50</sub> (48h) > 10000 mg/L (*Daphnia magna* OCDE 202)
- LL<sub>50</sub> (96h) > 100 mg/L (Oncorhynchus mykiss OCDE 203)

Hydrocarbons, C13-C16, n-alkanes, isoalkanes, cyclics, < 0.03% aromatics

- ErL<sub>50</sub> (72h) > 10000 mg/L (*Skeletonema costatum* ISO 10253)
- LL<sub>50</sub> (48h) > 3193 mg/L (Acartia tonsa ISO 14669)
- LL<sub>50</sub> (96h) > 1028 mg/L (Scophthalmus maximus OECD 203)
- White mineral oil (petroleum)
- LC<sub>50</sub> (96h) > 10000 mg/L *Lepomis macrochirus*
- 2,6-di-tert-butylphenol
  - EC<sub>50</sub> (72h) 1.2 mg/L
  - $EC_{50}$  (48h) = 0.45 mg/L

Daphnia magna

• LC<sub>50</sub>(96h) 1 mg/L (fish)

tris(methylphenyl) phosphate

- EC<sub>50</sub> (72h) 0.4 mg/L Desmodesmus subspicatus
- LC<sub>50</sub> (48h) 0.14 mg/L Daphnia magna
- LC<sub>50</sub> (96h) 0.6 mg/L

Triphenyl phosphate

- NOEC (72h) 0.25 2.5 mg/L (Pseudokirchnerella subcapitata OECD 201)
- NOEC (72h) 0.25 2.5 mg/L (Desmodesmus subspicatus OECD 201)
- EC<sub>50</sub> (48h) 0.36 mg/L (Chironomus riparius)
- LC<sub>50</sub> (96h) 0.4 mg/L (Oncorhynchus mykiss)

## Mobility

- Air: There is a slow loss by evaporation.
- Soil: Given its physical and chemical characteristics, the product generally shows little soil mobility.
- Water: The product is insoluble; it spreads on the surface of the water

# Section 13 - Disposal Considerations

**Disposal:** This product may be recycled if unused, or if it has not been contaminated so as to make it unsuitable for its intended use. If it has been contaminated, it may be possible to reclaim the product by filtration, distillation or some other means. If neither of these options is suitable, consider controlled incineration, or landfill.

## **Section 14 - Transport Information**

**UN Number:** This product is not classified as a Dangerous Good by ADG, IATA or IMDG/IMSBC criteria. No special transport conditions are necessary unless required by other regulations.

## **Section 15 - Regulatory Information**

**AICS:** All of the significant ingredients in this formulation are compliant with NICNAS regulations.

## **Section 16 - Other Information**

This SDS contains only safety-related information. For other data see product literature.

Acronyms:		
ADG Code	Australian Code for the Transport of Dangerous Goods by Road and Rail (7 <sup>th</sup> edition)	
AICS	Australian Inventory of Chemical Substances	
SWA	Safe Work Australia, formerly ASCC and NOHSC
