4.2. Most important symptoms	4.2. Most important symptoms and effects, both acute and delayed	
General information	Causes serious eye irritation. Vapours/aerosol spray may irritate the respiratory system. The product contains a small amount of sensitising substance. May cause an allergic skin reaction.	
4.3. Indication of any immedia	te medical attention and special treatment needed	
Notes for the doctor	Treat symptomatically.	
SECTION 5: Firefighting meas	sures	
5.1. Extinguishing media		
Suitable extinguishing media	Water spray, foam, dry powder or carbon dioxide.	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.	
5.2. Special hazards arising fro	om the substance or mixture	
Specific hazards	None known.	
Hazardous combustion products	Carbon dioxide (CO2). Carbon monoxide (CO). Sulphurous gases (SOx). Mercaptans. Zinc oxide fumes. Hydrogen sulphide (H2S). Nitrous gases (NOx).	
5.3. Advice for firefighters		
Protective actions during firefighting	Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Contain and collect extinguishing water. Avoid discharge into drains.	
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.	
SECTION 6: Accidental release	e measures

Personal precautions	Wear suitable protective clothing as protection against splashing or contamination.	
For emergency responders	Keep unnecessary and unprotected personnel away from the spillage.	
6.2. Environmental precaution	<u>S</u>	
Environmental precautions	Stop leak if safe to do so. Avoid the spillage or runoff entering drains, sewers or watercourses. Contain spillage with sand, earth or other suitable non-combustible material. Inform the relevant authorities if environmental pollution occurs (sewers, waterways, soil or air).	
6.3. Methods and material for containment and cleaning up		
Methods for cleaning up	Absorb spillage with sand or other inert absorbent. Place waste in labelled, sealed containers. Dispose of waste via a licensed waste disposal contractor.
